

## Composition

### Compound feed for horses, ingredients:

Myoalpin® fibres\*, meadow grasses and herbs, linseed cake, sunflower seeds, Bierhefe Pur, apple pomace, milk thistle cake, cold-pressed oil mixture (linseed oil, camelina oil), carrot, cut rosehip, parsnips, beetroots, marigold blossoms, raspberry leaves, blackberry leaves, cornflower blossoms, rose petals

\*- made of grasses, herbs, and legumes

### Analytical components:

Crude protein	13,70 %	Zinc	36,00 mg/kg
Crude oil and crude fats	9,50 %	Manganese	89,00 mg/kg
Crude fibre	24,50 %	Copper	9,10 mg/kg
Crude ash	8,20 %	Selenium	0,07 mg/kg
Calcium	0,59 %	Lysine	0,62 %
Phosphorous	0,38 %	Methionine	0,21 %
Magnesium	0,27 %	Cystine	0,14 %
Sodium	0,067 %	Threonine	0,55 %
Potassium	1,51 %		
		Digestible energy	10,80 DE MJ/kg
Starch	1,90 %	Metabolisable energy	9,30 ME MJ/kg
Sugar	7,50 %	Prececal dig. crude protein	8,47 %
Fructan	3,95 %		

The analysed values are of native origin.

The analysed sugar value is also of wholly native origin. No added artificial sugars.
